

Peatlands – our special Climate Change problem

Senior advisor
Tapani Veistola
Finnish Association for Nature
Conservation
SOMPA Viikki
24.9.2019

What to do now

- No new peatlands into use
- Conservation programme
- Restoration development also for former peat fields
- Paludiculture R&D, pilots, product development to CAP

Exit plan for peat

- Land-use sector climate program
- CAP, EAFRD & ESF
- Peat commission like German coal areas?
- Delays -> bigger emissions & harder exit

Thank you – let's keep on contact!
